

# Map & Compass Module

## Example US Map

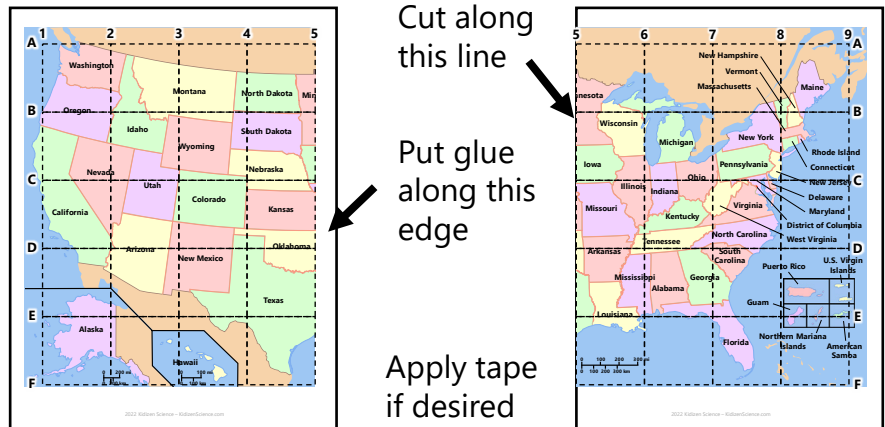

For use with the included US Map clue sheets

### Instructions:

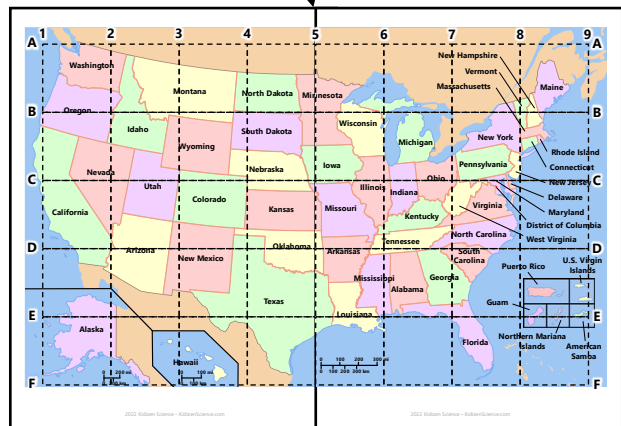

1. Print out the next two pages (either color or grayscale is fine).

2. Cut one of the sheets vertically along the "5" line (so that the image is now flush with the edge of the sheet).

3. Overlay the cut half onto the non-cut half, aligning the "5" lines so that the two halves form one continuous map. Use a glue stick and/or tape to fix the two halves together.
